

ZWCAD Professional 2026 Brochure

Professional Product Overview

ZWCAD Professional is a professional CAD solution from ZWSOFT designed for fast, reliable DWG-based design workflows.

Key Features

- Native DWG compatibility
- High-performance 2D drafting and annotation
- Dynamic Blocks and Smart Plot
- PDF/DGN import and export
- Flexible licensing
- 3D solid and surface modeling
- Parametric constraints
- Point Cloud support
- IFC and STEP support
- Advanced APIs: LISP, VBA, .NET and ZRX

Industries

Architecture, Civil Engineering, Mechanical Design, Manufacturing, Infrastructure, Utilities and General CAD drafting.

System Requirements

Windows 10/11 (64-bit recommended), modern multi-core processor, minimum 8 GB RAM (16 GB recommended), OpenGL-compatible graphics, and adequate storage.

Why Choose This Edition?

Choose ZWCAD Professional when you need advanced 3D design, automation, customization, and interoperability in addition to all Standard features.
